

EOS – a success story

With head and heart in finance

The World of EOS

If it's successful, it lasts. This applies to the EOS Group, too.

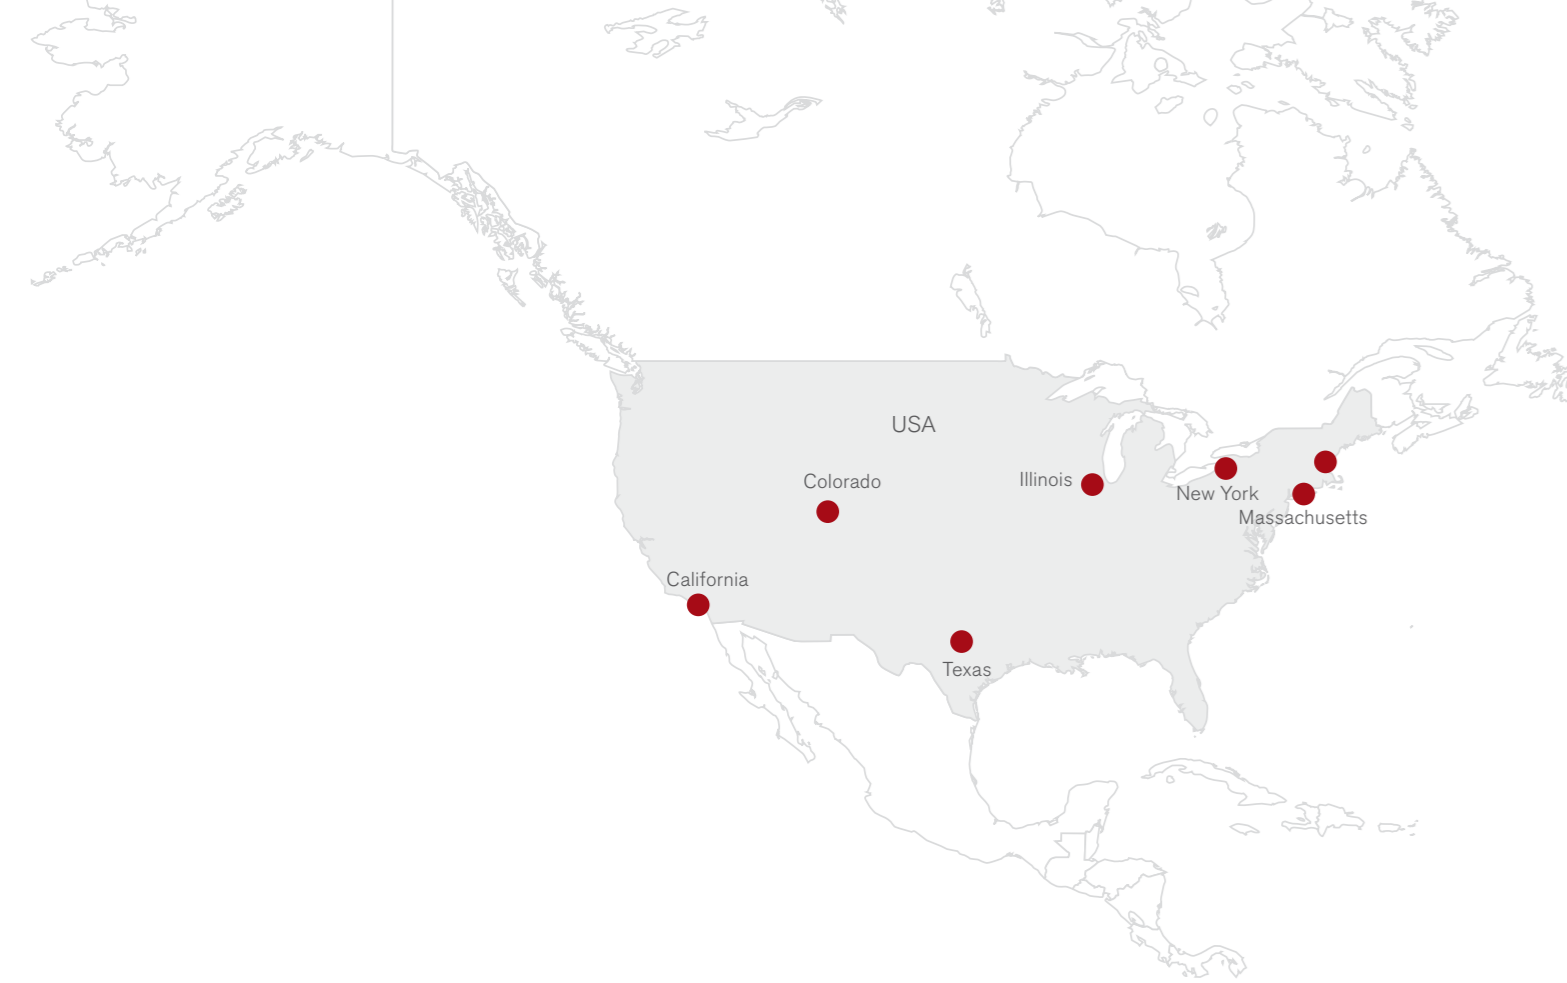

In economically turbulent times, continuity and sustainability are becoming more significant as proof of quality. The international EOS Group was established ten years ago and has been growing steadily ever since. This is something worth celebrating for the EOS companies which have been serving their clients with success for decades and for all those EOS companies that have become part of EOS over the past ten years.

First and foremost, EOS stands for people – our clients and employees. They are the key to our success. Winning their trust and earning it anew every day is what drives us on. The overview shows what EOS has achieved over the past ten years. Would you like to find out more about how EOS has developed? If so, you are cordially invited

to get to know our team better. Take a look at the EOS Company History, which has been published on the occasion of our brand's birthday. We hope it makes fascinating reading. Order your EOS Company History via [**chronicle@eos-solutions.com**](mailto:chronicle@eos-solutions.com).

EOS – a solid partner with a heart for lasting business relationships

All over the world, we are united by the way we work: we adhere to high standards. As a client, you benefit from our wealth of experience, our specialist knowledge and the individual advice we give. Our guiding principle is our promise to you: With head and heart in finance. Together we develop solutions that meet your needs and safeguard the stable relationships with your customers. All of which forms the basis for our success.
